Paris, France

SUMMARY

Master's degree in Statistics, ENSAE

One year professional experience

EXPERIENCE

Nimley, Paris, FR, 10 months

05/2017 - 02/2018

Data Scientist (Internship)

- Implement microservices making auto reporting available in CRM (save one-day work of time for three customer success managers)
- Scraping scripts running on a daily basis in order to enrich our databases
- Train and deploy a predictive sentiment analysis model for responses to prospecting emails with 90% f1 score

Societe Generale Investment Banking (SGCIB), Paris, FR, 3 months

06/2016 - 08/2016

IT & Equity derivatives (Internship)

- Investigate new data related projects for the bank, implement proof of concepts for an internal competition.
Sample project : recommendation tool in order to identify the most profitable products proposed to hedge funds.

PERSONAL PROJECTS

Hackathons

05/2018 - 11/2018

- BigDatathon in Hong Kong (weibo challenge) and ENSAE Genius in Paris (Microdon charity association)

Data Science Portfolio, guillaumedelaloy.github.io/Portfolio/

09/2018 - 11/2018

- Personal page explaining projects I have loved working on

Master Thesis, data science for business

01/2018 - 05/2018

- Designed a serverless service (AWS) in order to automate prospection for B2B companies

Bibliothèque Publique d'information, junior enterprise mission

11/2015 - 01/2016

- Design a reporting tool in order to understand occupancy rate with VBA (Excel), and make annual analysis easier with a d3js calendar map
